

Postdoc Host Offers in Germany

Are you looking for an institution in Europe to host your Marie Skłodowska-Curie project?

Where to search?

Search for more than 100 project propositions at universities (of applied sciences), research institutions and private companies in Germany on the KoWi webpage: <http://www.kowi.de/msca-host-offers>

What is offered?

Universities (of applied sciences), research institutions and private companies in Germany are looking forward to host excellent researchers funded by a Marie Skłodowska-Curie postdoctoral fellowship within the Marie Skłodowska-Curie Actions (MSCA) of the European Union.

Via the MSCA Fellowships postdoctoral projects are funded in all disciplines. The projects should contribute to the career development of promising researchers in Europe. Postdocs have to prepare the application in liaison with a supervisor at a suitable host institution. Next deadline is 10 September 2015.

More about funding opportunities and criteria for the MSCA on www.kowi.de. Search according to your discipline on our specific webpage for interesting offers like:

Topic: „midbrain dopaminergic system regulation with emphasize on studying neurodegeneration processes during Parkinson’s disease and alterations leading to drug addiction“
Potential Host: University Hospital Hamburg-Eppendorf (UKE)

Topic: „We are interested in hosting fellows with an interest in language variation, language change, or language development in the context of multilingualism, or in sociolinguistic studies on language attitudes and standard language ideologies.“
Potential Host: University of Potsdam

About us

The „European Liaison Office of the German Research Organisations“ (KoWi) informs, advises and trains researchers and administrators at universities (of applied sciences) and research organisations in Germany or researchers coming to Germany via European research funding in the context of „Horizon 2020“.
